

Four Function Pool Control Centre

AquaLink[®] TRI[®]

AquaLink TRI takes the expense and complexity out of pool automation and delivers a user friendly and highly affordable product to your pool pad. AquaLink TRI allows you to control multiple devices with a simple intuitive interface with the option of control thru your smart phone.

AquaLink TRI puts the power of control at your fingertips.

Why Automation?

The AquaLink TRi allows you to control multiple devices and set programs or schedules from a central control hub on your pool pad.

How does it work

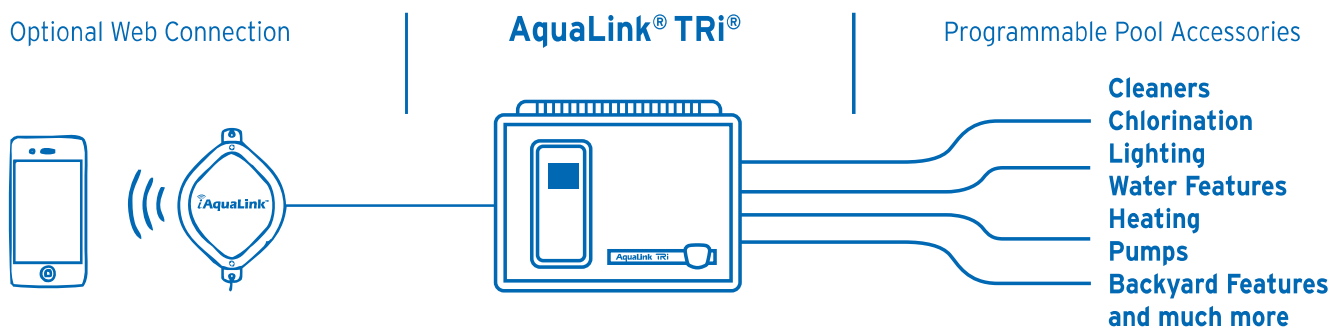

With AquaLink TRi you can set schedules and programs across almost anything. You can schedule your chlorinator and pump to come on during suitable off peak periods, even schedules to activate your lights and water feature. And you have all this power at your fingertips anywhere, anytime with the option of iAquaLink. iAquaLink puts control on the internet so you can access your pool via your smart phone, tablet or PC.

Installation

Once AquaLink TRi has been installed by a licensed electrician you have the freedom to set up the controller to suit your needs and changing configuration of your pool pad. The AquaLink TRi incorporates a series of 4 x standard power outlets that allow the freedom to change any device as you require without the need for a service call out.

Features:

- Set schedules and parameters to suit almost any compatible product such as,
 - Desired temperature (Gas, Heat Pump and Solar heaters),
 - Variable speed control
 - Chlorine output
 - LED lights
 - Water features and much more.
- Assign labels to AUX for easy user selection of products and devices
- Removable wired user interface for easy access
- iAquaLink compatible for operation through web connect or iPhone/Android App
- Control 4 x power sockets and 3 x power valve actuators
- Available in Pool or Pool/Spa versions with or without iAquaLink

Zodiac lives in the backyards of Australian families, at home in the pool.
